MINIATURE ROSES

"Tiny Gems of the Rose World"

Miniature roses are perfect mimics of the big roses in form, foliage—everything down to the most minute detail.

Miniature roses have a beauty all their own and their use in arrangements, corsages, buttonieres, etc. is limited only by one's skill and imagination.

Full grown plants are 8 to 12 inches high. They are ideal for low borders, hedges, window boxes, pots, etc. Redwood tubs planted with a number of these miniature roses make interesting and effective movable gardens for those sunny spots in your patio.

Miniature roses are hardy and enjoy the same growing conditions as your large roses. They bloom all season long. Fully open blooms are about one inch across.

Miniature Rose "CUTIE"

We are doing extensive breeding work with miniature roses, trying to bring you a complete color range, more hardy varieties and an even greater profusion of flowers. Several of our new varieties are included in this list for the first time.

MINIATURE ROSES

(As advertised in Popular Gardening, Sunset Magazine, American Rose Magazine, etc.)

NEWEST INTRODUCTIONS

CUTIE—Pat. Right Res. Tiny pink buds and semi-double pink flowers. Very compact, almost thornless plant. Tiny medium green fern-like foliage. Probably the freest flowering of all miniatures. Foliage turns to autumn tints of red, orange and bronze with cold fall weather. Fine pot plant. 8-10 inches.

CENTENNIAL MISS—Pat. Right Res. Double deep red flowers. More double than Oakington Ruby. Very fragrant. Free flowering. Fertilize this variety lightly for best color. Practically thornless plant with dark green foliage. (Pictured on Cover)

PINK JOY—Pat Right Res. Double fragrant pink flowers. Bright until petals fall. PINK JOY has beautifully shaped deep pink buds with just a hint of salmon. Habit of plant and bloom is similiar to Oakington Ruby of which this is a seedling. Good growth and foliage. 10-12 inches.

PATTY LOU—Pat. Right Res. The first bi-color miniature. Small (1 inch) very double rose colored flowers—like little carnations. Tiny bi-color buds with top of each petal colored rose and reverse side soft silver-pink. Free flowering and fragrant. Has been a favorite with visitors. Grow in full sun for best results. 10-12 inches.

Price—4 kinds above: \$1.00 each; 3 for

\$2.50; 10 for \$7.50

PATTY LOU

OAKINGTON RUBY—A gem of a little rose from England. Hardy, everblooming bushy plant. Miniature RED buds open to double one inch flowers—freely produced all season long. Excellent hedge or border plant. 10-12 inches.

Price \$1.00 each; 3 for \$2.25; 10 for \$6.00

JULIETTE—A new variety from the state of Washington. Resembles Gruss and Tepliz, only in miniature. Free flowering brilliant crimson. Flowers larger than most miniatures. Holds color well even in warm weather.

\$1.00 each; 3 for \$2.25; 10 for \$6.00

ROSA ROULETTI—(sold out until April) Tiny pink buds and double pink flowers. One of the oldest varieties, but still good. Very hardy and free flowering.

3 for \$2.25; 10 for \$6.00

PIXIE PEARL—(available after Oct. 1) Snow white flowers of satiny texture, showing just a tint of pink when in the bud. Very free flowering.

3 for \$2.25; 10 for \$6.00

Prepaid

ALL MINIATURE ROSES listed are grown in 2¼ inch pots and will bloom freely soon after you plant them. Prices quoted are prepaid in U. S., Alaska and Hawaii.

For Air Mail add 25 cents for first plant and 10 cents for each additional plant. Air shipments are packed in moss without soil.

Calif. customers please add 3% sales tax.

Miniature Roses may be used effectively in planter boxes and for foundation planting where a compact low effect is desired.

**Try Miniature Roses in pots for the
garden and greenhouse.**

WHITE FAIRY—(sold out until fall) Very double tiny white flowers in clusters. Flowers are often tinted soft pink in cool weather. Plant and foliage larger than Oakington Ruby.

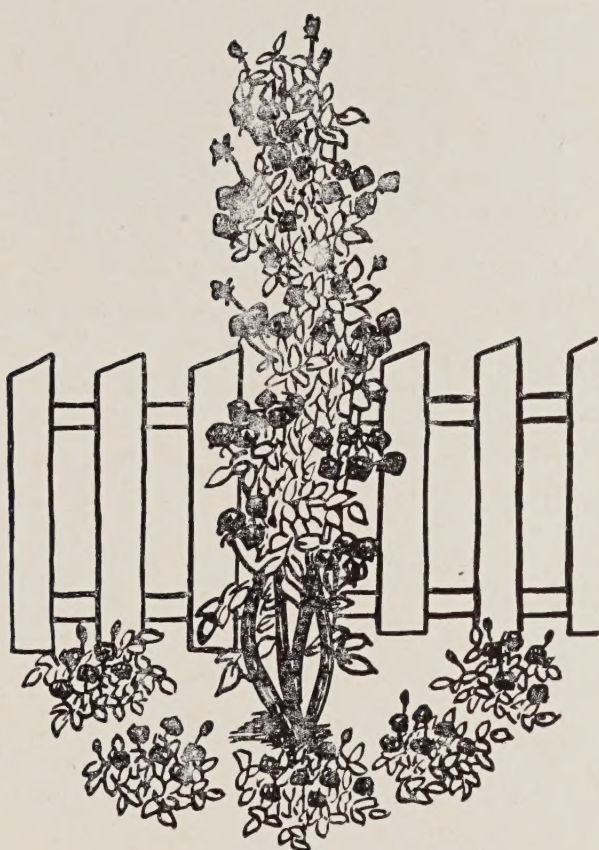

3 for \$2.25; 10 for \$6.00

FOR MINIATURE ROSES—We suggest:

- Plant in sunny location—South, East or west side of house is fine.
- Space 10 to 12 inches apart.
- Soil—good garden loam (or potting soil).
- Fertilizer—Vigoro (sparingly), Fish, Castor Bean Meal or Liquid.

— We ship all year—

If because of delay in transportation, your miniature roses look dry upon arrival, soak them (tops and all) in water for several hours before planting.

We suggest using Miniature Roses for edging or massing around Climbing, Pillar and Tree Roses

Plant a CLIMBING YELLOW SWEET-HEART and edge bed with miniature roses as pictured above.

**CLIMBING
YELLOW SWEETHEART**

Pat. App. For

NOW — for your garden — a truly yellow climbing baby rose. Like the old favorite Cecil Brunner but apricot yellow in color.

Fragrant—Thornless — Everblooming. Repeats until frost. Will bloom first year. Excellent for corsages, small bouquets, etc. Strong growing plant to about ten feet.

\$2.00 each; 3 for \$5.25 prepaid.
